VISION

We have a bold and radical vision to change Newham for the better and to build our future together.

Newham is a diverse, and aspirational borough with huge potential. By putting people at the heart of everything we do, we aim to enable all our residents to reach their potential and thrive within Newham, where people of all backgrounds come together as active and engaged citizens.

Newham is changing rapidly. Our part of East London is booming, with significant investment creating new jobs, new homes and new opportunities. But it is also a time of great uncertainty for many of our residents. London is one of the richest cities in the world, but too many of Newham’s residents have to survive on low incomes. We are on the frontline of London’s housing crisis, with the highest number of families in temporary accommodation in the country.

We want to make Newham a place where everyone can achieve their potential, and where everyone feels involved in their community. That means working hard to remove barriers, encourage aspiration, promote social integration and speak up for our community.

We must work differently by involving, engaging and listening to our local community; opening up our processes to scrutiny; and being open to change and improvement. We will work with our local residents, and genuinely involve them in decisions. We will also work in partnership to build on the strengths we already have in our community – adopting a community wealth building approach that seeks to invest locally and support the growth of our local economy and voluntary sector.

Our corporate plan sets out how we will do that, and our journey in the next year towards achieving that vision.
The 2019/20 budget is shifting spending to support key council priorities:

- £3m to pay our care staff the London Living Wage
- £6.3m so that primary school children continue to eat for free
- £10.6m more into children’s services
- £1.3m more to support children with Special Educational Needs
- £1.4m more to support 19,000 lowest income households by cutting the cost of their Council Tax
- £390,000 for free bulky waste collections
- An additional £500,000 to accelerate social housing delivery
- £250,000 to ensure residents are at the heart of our decision-making

Building Newham’s Future Together
INTRODUCTION

Building Newham’s Future Together
INTRODUCTION – WHAT IS THIS PLAN ABOUT?

This plan sets out what the Council will do in 2019/20 to achieve the Mayor’s vision for Newham, as chosen by the electors in May 2018.

It is the first time in many years that the Council has published a corporate plan. So it reflects an organisation in transition.

The Plan reflects the pledges set out in the Mayor’s Manifesto, and shows how those pledges will be taken forward in 2019/20. It also supports the Community Plans which have been developed by the Newham Citizens’ Assemblies, and provides a framework for the individual business plans that will be developed by the Council’s operational services.

The corporate plan is mainly about what the Council does. However, it will also link with the strategies and plans which are developed by the partnership boards of which the Council is a member. It provides the basis for a performance and planning framework which sets out clearly our priorities, with the main tasks that we will deliver in 2019/20, and headline performance indicators which capture how, and how effectively, those priorities are delivered.

This initial plan covers activity in 2019/20 only – although many of the ambitions set out will take longer to deliver. This is the start of a longer process of strategy development for the council, and this Plan will provide a base for a wider Newham Community Strategy which will be developed with residents and partners to set out the medium and long term ambitions for the borough.
PRINCIPLES
We have agreed some key principles on which the corporate plan is based.

People at the heart of everything we do
When planning, delivering and reviewing our service offer we will listen to and involve the people whose lives are affected. Community and customer engagement is central to policy development, service delivery, and how services will be designed. We will use high quality and rigorous research and analysis, including representative surveys of residents and service users; and we will hold regular citizen and youth assemblies which will provide a forum for people to express their views and input their ideas.

Openness and transparency
We will improve the openness of our democratic, financial, HR and procurement processes. This includes opening up our work to independent scrutiny to ensure that the decisions we make about how we spend our money are scrutinised and so we can learn from past experiences and improve to meet the standards of best practice. We will ensure that we have sound and ethical governance processes.

Efficient delivery and value for money
The Council now has an agreed financial strategy to deliver high quality services which meet the needs of residents and businesses in the borough. A focus on value for money is key if we are to meet the objectives set out in this plan. A challenging financial context, which includes unprecedented cuts to our budget, makes it even more essential that the way we work is as efficient as possible.

Working in partnership
We cannot achieve better outcomes by working in isolation. We will work with our partners to deliver results together. Whether that is with police to improve youth safety, health partners to prevent ill health, or schools and other education providers to increase attainment, skills and readiness for employment.

Inclusion
Newham is the most diverse local authority area in the country. We celebrate our diversity as one of our greatest strengths, and we are committed to ensuring that the Council’s approach is inclusive and reflects the diversity of those that we serve. We ensure a robust approach to equalities, and aim to promote positive social integration in all that we do.
PRIORITIES
PRIORITIES

Our vision and principles underpin five priorities in 2019/20 for the services that we provide, and an additional priority to strengthen the way that the Council works, so that we are fit for the future.

PRIORITY 1:
Bright futures: supporting children and young people’s aspirations, keeping them safe and removing barriers to success

Newham has one of the youngest populations of any area in the country. But too often our children and young people are held back by factors out of their control. Poverty, crime and a lack of opportunity can stifle aspiration. We are committed to supporting our children and young people to achieve their goals and championing their voices.

This means having:
• A high quality and accessible universal offer which supports learning and development
• An effective partnership with our schools to ensure quality provision for all and support for those with additional needs
• A high quality, co-produced youth offer that provides a varied and inclusive range of activities
• A robust partnership approach to improving youth safety
• Clear pathways for children at risk, those in care, and care leavers

We have already established a programme of youth citizen assemblies to involve our young people in decisions about their services and their borough. We have also committed an additional £1.4m to improve youth services in 2019/20, alongside significant investment in children and young people’s services. In the coming year, we will:

### Building Newham’s Future Together
PRIORITIES

PRIORITY 2: Building Communities - a housing offer for residents that delivers more genuinely affordable homes in well-designed neighbourhoods

Decent homes are the bedrock of people’s lives and neighbourhood stability. Poor quality or unstable housing affects mental health, educational outcomes, social integration and much more. As in many parts of London, in Newham rents and house prices have continued to soar over the past decade while household incomes have not increased. Access to housing in the borough is increasingly out of reach for many.

To address this we will:

• Increase the supply of homes available at genuinely affordable rent levels with a focus on quality and place-making – building communities where people want to live
• Establish a single, well-resourced housing delivery team that joins up and scales all existing initiatives and is set up for success
• Reduce the numbers of homeless households living in temporary accommodation
• Work with partners, including those in the voluntary sector and health service to strengthen our approach to supporting those sleeping on the streets

We have already established housing as a top priority. Our housing delivery statement sets out the scale of our ambition, and we have secured £107m from the Mayor of London’s Council Homes for Londoners Fund to deliver over 1,000 new homes at social rent levels. We have re-purposed the Council’s housing delivery company, Red Door Ventures, to focus on genuinely affordable homes, and agreed £120m of investment to improve existing Council homes. Below sets out our priorities to continue this work.

PRIORITIES

PRIORITY 3:
Community Wealth Building a strong economy that supports local businesses, nurtures talent and provides opportunities for all

We want all local people to enjoy the benefits of economic growth in our borough. Growth and inward investment have too often failed to benefit all of Newham’s residents. We will realise more of the potential of growth for our community, residents, local businesses, and our voluntary sector, and seek to make the most of the assets that we and our partners have in the borough. That will help to achieve a fairer and more prosperous Newham.

The Council will:
• Use our purchasing power and influence to keep wealth in the local economy
• Support businesses to increase the number of higher skilled, and higher paid jobs available to our residents, and help our residents improve their skills
• Help young people to get access to the very best opportunities, regardless of their background.

We have already announced our intention to become a Living Wage Council, with £12m over the next four years set aside to achieve this goal, and we have written to businesses across the borough encouraging them to follow our lead. Over the coming year we will develop a comprehensive community wealth building strategy, including the activities overleaf:

Become a Living Wage employer, and support others in the borough to do so by establishing a Living Wage Unit. Review contract conditions to require suppliers to offer benefits for the local community such as employment opportunities wherever possible. Support and nurture new and existing small businesses to create jobs.</td>
</tr>
<tr>
<td>Increase skills levels in the borough and strengthen pathways from education and training to employment</td>
<td>Develop a skills strategy for Newham including a focus on young people and apprenticeships. Promote continued community access to affordable adult learning and skills training.</td>
</tr>
<tr>
<td>Work with all our partners to use our procurement and supply chain to spend public money locally to support Newham businesses</td>
<td>Review the Council’s spend and procurement activity and strategy, including the weighting of social value activity for contractors. Increase the use of Dynamic Purchasing Systems which allow new suppliers to join at any time.</td>
</tr>
<tr>
<td>Improve partnership with the voluntary sector to support community wealth building</td>
<td>Deliver a strategic review of community spaces that recognises wider social value.</td>

<td>Continue Council’s resilience planning for potential impact of Brexit. Review and mitigate potential impacts on Council, residents and economy through the Newham Brexit Board.</td>
</tr>
</tbody>
</table>
PRIORITIES

PRIORITY 4:
An environment for all - an attractive borough which encourages active lifestyles, social integration and civic responsibility

We want our residents to be proud of our local area and enjoy our surroundings. It is important that we have accessible and high quality open and green spaces for people to enjoy and encourage greater physical activity, and that our roads and streets are well maintained. We want more people to respect our local environment, and to stop issues like fly-tipping with positive behaviour change and robust and targeted enforcement.

We have already established a parking review, with a series of citizens’ assemblies to involve people in developing a fairer parking scheme. We have also abolished the bulky waste charge to help us tackle fly tipping, and held workshops with residents to develop community-led solutions. Over the coming year we will continue with the work overleaf.

Increase number of residents-led initiatives |
| Work with the GLA and other bodies to contribute to improved air quality | Deliver a local action plan on improving air quality in the borough |
| Increase the use of sustainable transport methods | Publish a Local Implementation Plan which commits the Council to make improvements to encourage greater use of sustainable transport in line with the Mayor of London transport strategy  
Introduce at least three Liveable Neighbourhood areas securing funding from Transport for London (TfL) |
| Improve recycling rates | Maintain investment in visiting team and conduct communications campaigns seeking to influence behaviour change and improve recycling rates  
Increase work of visiting teams in schools |
| Reduce instances of fly-tipping and improve public perception on the Council’s approach to street cleaning | Establish pilot behavioural change programmes and increasing personal responsibility of residents  
Remove charges for bulky waste collection, monitor and review impact of fly-tipping after 1 year

PRIORITIES

PRIORITY 5:
Quality of life - improving our health and social care system so it works for Newham residents

We want our residents to be proud of our local relatively young population. It is critical that we work closely with our health partners to address some of the biggest threats to our residents’ physical and mental health. Understanding the impact of wider social factors and creating an environment which supports healthy behaviours is central to improving health outcomes in Newham.

We want people of all ages in Newham to have high aspirations and feel they can achieve them. Our health and social care offer must support people to prevent poor health and also to manage conditions better if they do arise, and we must work across the council to address wider issues, such as poor housing, that impact on people’s health and wellbeing. We will work with partners to support healthier individuals, healthier families, healthier schools and healthier work places by encouraging a ‘health in all policies’ approach.

PRIORITIES

PRIORITY 6: An efficient and effective Council: making Newham Council work better for everyone

This plan sets out an ambitious and challenging policy and service delivery agenda for the Council in 2019/20. We are going through major change to realign the organisation, and to build the capability to deliver the Vision and Priorities.

Building an organisation that is fit to deliver for the long term is therefore one of priorities in the next 12 months. We intend to:

- Engage and empower our workforce to focus on improving outcomes for our residents
- Build and maintain effective relationships with partners including the health service, local businesses, and the police
- Improve communication between residents and the Council, ensuring that we are a responsive organisation and involving residents in decision making
- Adopt a comprehensive and robust approach to equality and diversity in service delivery and as employers
- Modernise our systems, including our digital infrastructure, to support smarter ways of working

We have already done a great deal to open up decision making, with a series of local citizen assemblies attended by over 1,000 residents and public questions reintroduced at our more regular council meetings. We have set a balanced budget for 2019/20, reflecting investment in our new priorities. Over 500 staff have participated in workshops to help change our organisation for the better. We will continue to drive this and ensure an efficient and effective council through the activities overleaf.
